5102 - 46 Street****FEE****\$100.00****QUESTIONS?****Contact Us:****780-623-2248****REGISTER ONLINE****Visit our website to register:****Ines.ca**

### Program

Google Apps give teachers the opportunity to interact with students in more meaningful ways, and G Suite empowers students to stretch their thinking as they collaborate, explore, and learn.

Teaching Math with Google Apps shows you how to:

- Create more engaging activities.
- Interact with students throughout the learning process
- Spend less time repeating instructions and grading work
- Improve lessons to better meet your students' needs

This session will inspire to transform your mathematics classroom. Please fill out the [Google Form](#) to provide current experiences and understanding of G Suite and Google Apps.

*This learning opportunity is being offered through curriculum implementation funding from Alberta Education.*

## Presenters

### Candace Ketsa

Candace has been teaching Mathematics for 23 years in a variety of different schools. From Kindergarten, Adult First Nations Upgrading, and Online/Outreach learning, her experiences has given her an opportunity to grow both personally and professionally. She has been seconded to write high school math resources for Alberta Education and support 20-2 and 30-2 math teachers throughout Alberta via technology for the Edmonton Regional Learning Consortium. She has also published study guides for the high school math curriculum.

Her journey has led her to Vincent J. Maloney school where she is currently teaching Math. Her previous role was the Pedagogy Teacher where she helped teachers implement technology into their classroom to transform learning.
