Program

***This webinar is a follow up to the Guided Math Workshop provided by Dr. Nicki Newton in October, 2017.**

This session will deconstruct and outline specific structures for implementing a Guided Math classroom. Specific details and examples will be provided for each aspect needed to start using Guided Math – Warm Up, Mini Lesson, Math Workshop, Wrap Up & Assessment. This will be helpful for teachers who would like to start, implement, and maintain a viable Guided Math structure in their K-6 classroom.

Presenters

Jackie Ratkovic & Sylvia Malo

Jackie Ratkovic and Sylvia Malo are Math Curriculum Consultants that work for Learning Network Educational Services. Both consultants currently work directly within classrooms with teachers and their students (K-9) in the various districts within the Northeast Central Region. Both bring with them many active years of experience with teaching mathematics in K-9 classrooms.
