Program

Growing Resilient Kids: Lessons from the past and our hope for the future (GRK) provides an overview on the philosophy that sparked a revolution in resilience and strength-based interventions, as outlined in the book *Reclaiming Youth at Risk: Our Hope for the Future*. This one-day presentation will explore the causes for discouragement in today's youth and how to mend lives, foster resilience, and reclaim our youth who are troubled and lost. Building on past foundational models including research on the Circle of Courage, participants will be introduced to the recently developed Model of Leadership and Service.

This learning opportunity is being offered through a grant from Alberta Education.
