Program

Ready to take the leap and do some learning and planning with the new outcomes? Join us to talk about planning, assessment, and quality instruction in the literacy classroom. Sample processes and structures will be shared for teachers to make use of in their own contexts. Participants will walk away from this learning experience confident to start the school year in this subject area.

PLEASE NOTE: It is recommended that participants of this session are already familiar with the [curriculum design and architecture](#) and have a [New.LearnAlberta account](#). (Follow the links for videos to help you with this.)
